

The Gateway Chapter 169

Fellow Sirs, we hope all of you have at least got your first vaccination shot for COVID 19. We feel it's an important step for us getting back to getting together. So for those of you that have had trouble getting an appointment or just don't know where to start, we are going to try to help you. Our members have already used the fairgrounds, Pacific Orthopedic, CVS, the VA and several other places. I was hoping to be able to put all the places on one link so here is the best we can do : <https://www.vaccinateca.com>. Once you open the link, put in your zip code and be amazed. If you need help scheduling your appointment on the computer, we can help you with that. We will even get you a ride to your appointment and wait with you and make sure you get back safely. Kudos to our Joe Doherty for picking up and taking a couple other members with him when he got his vaccination. I got my shot at CVS and it was easy to register and took less than 10 minutes to get the shot once I was there. For help give me a call, Lee Nichols @ 259-4865. My experience was that all the info I needed was my date of birth, address and Medicare ID number. Last thing, most of us can handle these things ourselves but there are a few that can't. Take Joe's example and reach out. Thanks to Ted Fox and Ted Shigyo for their input regarding this article.
